## EDUCATION

**Sri Sairam Institute of Technology**

*Bachelor of Technology in Artificial Intelligence and Data Science – CGPA: 7.17/10*

Chennai, TN

*Sep. 2023 – May 2027*

## EXPERIENCE

**AI & Application Development Intern**

Jun. 2025 – Aug. 2025

*BillionBright Solutions LLP — Paid Internship*

*Remote*

- Developed real-time application workflows integrating generative AI models into product-facing systems, focusing on reliable model integration and application-level functionality.
- Built and automated Stable Diffusion, LoRA, and Fooocus workflows for application-specific use cases, with hands-on work across model enhancement, integration, and deployment pipelines.

## PROJECTS

**Info-i (VeriTrust Agent) | Python, Qdrant, FastAPI, LangGraph, RAG**

Jan. 2026

- Engineered a FastAPI-based multimodal verification pipeline for text, image, and audio inputs using OCR/ASR, embedding generation, and evidence-grounded RAG.
- Designed Qdrant-backed hybrid retrieval and persistent claim memory with agent orchestration, metadata filtering, live evidence retrieval, and confidence-based human review.

**SodhaneGPT – Crime Intelligence Platform | Python, Next.js, FastAPI, XGBoost, NetworkX**

Jul. 2026

- Engineered an end-to-end crime intelligence platform integrating structured data ingestion, geospatial analytics, graph intelligence, predictive risk scoring, and explainable ML services.
- Built modular data and inference pipelines with schema validation, feature engineering, model serving APIs, and graph-based entity analysis for 100K+ record workloads.

**Hazard Det – Road Intelligence System | Python, YOLOv8, OpenCV, RabbitMQ, Raspberry Pi**

Nov. 2025

- Built an edge-AI road intelligence system integrating YOLOv8 inference with GPS/IMU sensor fusion, CAN-bus telemetry, and edge-side privacy processing.
- Designed an asynchronous edge-to-cloud pipeline using Raspberry Pi and RabbitMQ/CloudAMQP to publish structured hazard events for real-time geospatial analytics.

## TECHNICAL SKILLS

**Languages:** Java, Python, SQL, JavaScript, C++

**Backend & Web:** FastAPI, Node.js, Next.js, React.js, REST APIs

**Databases & Systems:** MySQL, Qdrant, FAISS, Redis, RabbitMQ

**AI & Data:** PyTorch, Scikit-learn, XGBoost, YOLOv8, LangGraph, RAG, Pandas, NumPy

**Developer Tools:** Git, Docker, Linux, VS Code

## ACHIEVEMENTS

- Champion** – SAMARTHA'25 National Hackathon — Winner, INR 1.5L
- Solo Champion** – NALSAR University AI Trading Challenge — Winner, INR 30K
- Top 10 National Finalist** – Volkswagen i-Mobilothon 5.0 Recruitment Hackathon
- Top 10 National Finalist** – IntelliSmart INSTINCT National Hackathon
- Top 10 National Finalist** – ISMA SugarNXT National Hackathon
- National Finalist** – Bank of Baroda National Hackathon
- Top 30 Finalist** – Tamil Nadu Tourism Startup Challenge, StartupTN

## CERTIFICATIONS

**NPTEL – Human-Computer Interaction**
